Contents

Research Papers

Hydrological response of snowpack under rain-on-snow events: a field study
P. Singh, G. Spitzbart, H. Hübl and H.W. Weinmeister 1

Soil moisture, water tension, and water table relationships in a managed cutover bog
J. Price 21

Rainfall redistribution over low hills due to flow perturbation
S.G. Bradley, W.R. Gray, L.D. Pigott, A.W. Seed, C.D. Stow and G.L. Austin 33

An adaptive modeling and monitoring approach to describe the hydrologic behavior of small catchments
M.S. Wigmosta and S.J. Burges. 48

Water table fluctuation in soils overlying semi-confined aquifers in response to time-varying replenishment
I.S. Teloglou, T.S. Zissis and D.N. Karamouzis. 78

Use of air permeability to estimate infiltrability of frozen soil
M.S. Seyfried and M.D. Murdock. 95

On the applicability of Bartlett–Lewis rectangular pulses models in the modeling of design storms at a point
N. Verhoest, P.A. Troch and F.P. De Troch 108

A numerical study of bank storage and its contribution to streamflow
P.J. Whiting and M. Pomeranets. 121

Effectiveness of using pedo-transfer functions to quantify the spatial variability of soil water retention characteristics
N. Romano and A. Santini 137

Including spatially variable effective soil depths in TOPMODEL
G.-M. Saulnier, K. Beven and C. Obled. 158

Entropy-based grouping of river flow regimes
I. Krasovskaia 173

Constructing correlated random fields in the laboratory for observations of fluid flow and mass transport
C. Welty and M.M. Elsner 192

Catchment similarity for regional flood frequency analysis using seasonality measures
D.H. Burn 212

Numerical simulation of the Noordbergum effect resulting from groundwater pumping in a layered aquifer system
J.-M. Kim and R.R. Parizek 231

Numerical versus statistical modelling of natural response of a karst hydrogeological system
L. Eisenlohr, M. Bouzelboudjen, L. Király and Y. Rossier. 244

Climate change effects on the hydrologic regime within the Churchill-Nelson River Basin
J.R. Westmacott and D.H. Burn 263

Density-dependent flow in one-dimensional variably-saturated media
M.C. Boufadel, M.T. Suidan and A.D. Venosa 280

A simplified dynamic model for flood routing in rectangular channels
M.E. Keskin and N. Ağiralioğlu 302

Factors controlling the distribution and transport of trichloroethene in a sand aquifer: hydrogeology and results of an in situ transport experiment
E. Benker, G.B. Davis and D.A. Barry 315

Surface water chemistry, particularly concentrations of NO_3^- and DO and $\delta^{15}N$ values, near a tea plantation in Kyushu, Japan
H. Ii, T. Hirata, H. Matsuo, M. Nishikawa and N. Tase 341

Use of mineral magnetic measurements to fingerprint suspended sediment sources: approaches and techniques for data analysis
J. Walden, M.C. Slattery and T.P. Burt 353
The use of aquifer response rate in the assessment of groundwater resources
A.D. Erskine and A. Papaioannou 373
List of Reviewers 1 November 1996 to 1 November 1997 392
